

Brussels, 14 October 2021

FOR IMMEDIATE RELEASE

Ralph Bronold and Christophe Pottier re-elected as President and Vice President of EPCIA

At the last formal meeting of the European Passive Components Industry Association (EPCIA) on 7 October 2021 in Sønderborg, Denmark, both Ralph Bronold, *TDK Electronics AG*, and Christophe Pottier, *Murata Europe B.V.*, were unanimously re-elected as President and Vice President of EPCIA respectively.

Under the umbrella of the European Electronic Components Manufacturers' Association (EECA), EPCIA represents a range of major passive components manufacturers, electrical & electronics associations and technological research institutes being active in Europe. Since many years, EPCIA is the most important association on a European level, representing the manifold interests of its members.

The EPCIA board will continue to lead EPCIA as the major platform for all participants in the European passive components industry market and further expand the network to related industry players and associations.

Members of EPCIA

About EPCIA: *The European Passive Component Industry Association (EPCIA) represents and promotes the common interests of the passive component industry active in Europe to ensure an open and transparent market for passive components in Europe as part of the global market place. Passive component manufacturers play a key role in the development of the electronics industry and more globally in the development of the e-society in Europe and the rest of the world. Every new function, every new semiconductor, generates new requirements in volume and performance for passive components. Supported by several large companies, a great number of SMEs (small and medium-sized enterprises), national associations and technological research institutes, the passive component industry has accumulated a considerable competence and know-how over the years.*
