

# Enforcement Database (EDB)

---

**EUIPO**

# Why EUIPO?

**The EDB is a legal tool:**

its use by law enforcement authorities is founded on article 2(1) of Regulation EU 386/2012 establishing the mandate of the EU Observatory

## What is the EDB?

Free of charge, secure platform enabling real-time exchange of information between right holders and enforcement authorities

BUILT UPON TMview AND DesignView

## Who participates?

A joint effort

## Is the EDB secure?

The EDB is federated into the secure **DG Taxud network** for EU customs. **EU police forces** access using the same network or via a secure static IP address

Furthermore, rights holders can **select** which enforcement authorities can view their data.

The tool is **Security Certified (SOC2)** to guarantee the integrity and confidentiality of the data.

What are the BENEFITS for rights holders?

# Customs applications for action

## Application for Action

Protect your rights on the border providing the custom authorities with the necessary information about your rights, contacts and products.

The Application for Action allows the applicant to request the customs authorities to take action with respect to goods suspected of infringing an intellectual property right.

Further details can be found in the [Manual for Application for Action](#) provided by DG TAXUD.

- 1 Select countries and languages
- 2 Select your IP Rights
- 3 Select your product
- 4 Review and send preAFA to COPIS

### 2 . Please select the IP Rights

If you have selected several countries (Union AFA), you can only include IPRs based on Union law applicable throughout the EU. **The following table includes only the IPRs that are associated to your products in the [Product Portfolio](#).** If there are no IPRs in the table, please relate your products to your IPRs.

The Enforcement Database is a **secure system** based on collaboration between IP right holders, customs and police. Created by the EUIPO, this **free tool** is opening a line of **direct communication** to protect your products against counterfeits.

It allows right holders to upload data on their IPRs, along with contact information and product details, making it easier for authorities to identify counterfeits and **take action**.

For **questions or technical issues** please contact [information@euipo.europa.eu](mailto:information@euipo.europa.eu) (+34-965139100)

## An integrated enforcement system

The Enforcement Database is built upon the existing IPR databases TMview and Designview. It is integrated in the secure network of DG TAXUD for EU customs.  
For police, integration is also planned as well as a link to the World Customs Organisation tool.
